EUROPEAN FORUM FOR  
AGRICULTURAL AND RURAL  
ADVISORY SERVICES

## **Web-conference “Preparing Advisers for Digital Era” 5<sup>th</sup> to 6<sup>th</sup> of October 2020**

### **EUFRAS workshop**

We exchange our experiences on how the rural advisory work was affected by the Covid-19 epidemic. A farmer, a field advisor and a manager of a rural advisory service from three different places in Europe give a short report from their different perspectives about how they experienced advisory work in the last half year and what conclusions they draw for the future.

Every participant of this workshop can share her or his experiences with advisory work in Corona-times in small break-out groups. We then gather together to summarize lessons learned.

Moderator: Pablo Asensio, FÜAk, Bavaria
